

Century College On Course Workshops 2018

On Course Workshops are ideal for college faculty, staff, and administrators looking for a proven approach to dramatically improving student success, retention and graduation.

On Course I

May 16-18, 2018 (8:30am-4:30pm)

The On Course Workshop is a highly experiential professional development 3-day event designed to provide you with dozens of innovative strategies for empowering your students to become active, responsible and successful learners. This is the same workshop offered at conference centers across the country.

These learner-centered strategies—representing best practices from innovators in higher education, business, psychology, sports and personal effectiveness—help students become full and active partners in their own education.

On Course II

May 21-24, 2018 (Day 1/1:00-5:00, Day 2/8:30-5:00, Day 3/ 8:30-5:00, Day 4/8:30-noon)

At the On Course I Workshop, you learned strategies for empowering students to become active, responsible learners. In the four day (two full days, two half days) On Course II Workshop, you'll not only add to your repertoire of student-empowerment strategies, you'll also learn to design and deliver learner-centered educational experiences that help students move from superficial to deep learning. (On Course I completion is required before attending On Course II)

These advanced design and facilitation skills are drawn from best practices in academic curriculum design, brain research, learning styles, active-learning principles, corporate training methodology, and personal development strategies.
