

"Videos for All"

Hot off the presses!

The Normandale departments of CTL, ITS, and OSD* announce a very exciting opportunity to streamline the use of captioned videos in your courses.

Show me the money!

We have applied for over \$25K from Minn. State to help us improve our video-captioning processes. (The amount is based on the number of our FY17 online credits - which by the way was roughly 17,000 – however, the money applies to all course delivery methods.)

Faculty support = Student success!

We are gearing this project with faculty in mind. We are creating a process that allows you to focus on the quality and content of your work, and takes the stress out of technology hassles.

Come join the fun!

May 22nd, 10am-12pm OR June 26th, 8am-10am

- Attend a workshop to discuss strategies for finding various types of pre-made videos, experiment with MediaSpace software for uploading and creating videos, and see a demo of Camtasia Studio (video-making software).
- Receive a **free microphone/headset** and an option to download **Camtasia Studio** onto your Normandale computer (for the first 10 faculty to RSVP for each date).
- RSVP: 952-358-8617 or Kathleen.coate@normandale.edu for either of these workshops.

See you then!

Sincerely,

Kathleen Coate (CTL), Sue Tischendorf (ITS), Geri Wilson (OSD), and Megan Eischen (Web Master)

**Center for Teaching & Learning, Information Technology Services, and Office for Students with Disabilities*
