

During Fall Development Days, the Center for Teaching and Learning team presented ways to use course learning outcomes to...

Make it Clear, Make it Count, Make it Connect

On Monday, September 17th from 3-4 pm in A2552, we're here to help you put what you learned into action in your own classes!

Whether you are the chair of a department that is thinking about revising CCOs, or an individual faculty member wondering how you can make your assignments or assessments more effective, this workshop on course learning outcomes is for you. Your CTL team will briefly provide strategies for reviewing CCOs, linking classroom activities to learning outcomes, and developing effective and relevant assessments.

The bulk of the workshop, however, will be a chance for you to apply these strategies to your own classes, so bring some lesson plans or assignments that don't feel connected and we'll help you give them a boost!
