

D2L Updates: October 18, 2018

10.8.6 Release SUMMARY

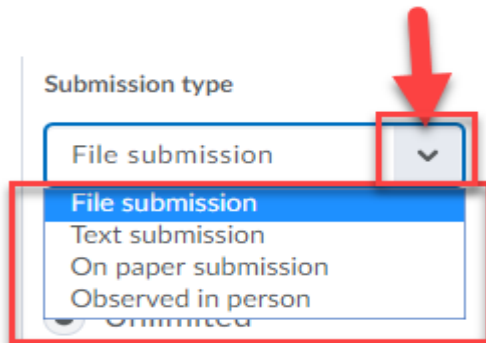

1. Assignments

- No longer using terms “submission” and “folder”:

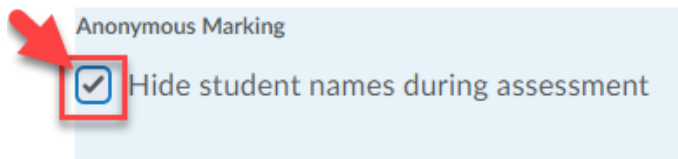

- Includes four types of assignments:

Note: Submission type cannot be changed once the New Assignment is saved

- Ability to “Hide student names during assessment”
 - This is similar to the “blind marking” option for quiz questions
 - Still able to access students’ papers if opened through the Gradebook
 - File or Text submissions will still trigger “release conditions,” if used

2. Quizzes

- Questions are “auto-saved” after each response. If response is changed, the new selection will be “auto-saved” immediately after the change.

Question 3 (2 points) Saving...
TV texts contain meaning.
 True
 False

Question 3 (2 points) ✓ Saved
TV texts contain meaning.
 True
 False

- Written Response questions save about every 15 seconds
 - If using the html editor, auto-save will occur on the student’s next “click” outside of the editor window
- Any unsaved questions will automatically save on “Submit Quiz”
- Rubrics no longer able to be associated with a Quiz
- Click below for a 5-minute video (shareable with students):

3. HTML Editor “Quicklinks”

- “Error” messages will be specific if a Quicklink tool is not available:

Summary ▾

You cannot take the quiz at this time because the quiz is inactive.

Note: Any changes or additions to these updates will be communicated through the D2L announcements.
