

MOQI ONLINE WORKSHOPS

QUALITY MATTERS WORKSHOPS

Join us for these workshops which focus on improving your online or blended courses. More Info at <http://minnesota.qualitymatters.org>

Full-time, part-time, and adjunct faculty and staff from the Colleges and Universities of Minnesota State are welcome to participate. Quality Matters most directly applies to online and blended courses, but is also applicable to web-enhanced and face-to-face courses.

IMPROVING YOUR ONLINE COURSE (IYOC) WORKSHOP

Are you looking for ideas for improving your online or blended course? Faculty who've completed this workshop tell us that they came away with many ideas for course improvement from this session.

The "Improving Your Online Course" workshop explores the QM Rubric and provides a framework to improve the quality of online and blended courses. Participants use the QM Rubric to review their own online or blended course and develop a course improvement plan. The content is based on the twenty-three "essential standards" of the Quality Matters Rubric. Participants should have an online or blended course ready to improve. This workshop is not for building a course from scratch or about how to use D2L Brightspace tools. **This workshop is delivered online as a two- or three-week workshop. There are no class meetings. Fee: \$35**

APPLYING THE QUALITY MATTERS RUBRIC (APPQMR) WORKSHOP

Are you curious what Quality Matters is all about? This workshop provides an overview of Quality Matters and describes strategies and techniques for assuring quality in the design and development of online and blended courses. As described by QM, the Applying the QM Rubric (APPQMR) workshop is QM's flagship workshop on the QM Rubric and the process of using the QM Rubric to review online courses. It is intended for a broad audience, including but not limited to faculty, instructional designers, and administrators who wish to understand more about the QM Rubric and process of peer course review. The APPQMR is the pre-requisite for the Peer Reviewer Course, which is the required course to become a QM Peer Reviewer. **This workshop is delivered online as a two-week workshop. There are no class meetings. Fee: \$45**
